

Name: Muhammad Laraiib Akhtar

Section: BCS-5B

Roll no: 211-5294

Assignment: 2

Course: Theory of Automata.

4.1 (f)

$S \rightarrow aSa \mid bSb \mid aAb \mid bAa$

$A \rightarrow aAa \mid bAb \mid a \mid b \mid \Lambda$

$L = \{ S \mid S \in (a,b)^* \text{ and } S \text{ is not a palindrome} \}$

$S \rightarrow abaabbabba$

4.3(b) The set of even-length strings in $\{a,b\}^*$, with the two middle symbols equal.

$$S \rightarrow aSb / bSa / aSa / bSb / aa / bb$$

4.10 (d) $\{a^i b^j \mid i \leq j \leq 2i\}$

$$S \rightarrow aSb / aSbb / \Lambda$$

4.12 $\{a^i b^j c^k \mid i \neq j+k\}$

$$S \rightarrow A / B$$

$$A \rightarrow aX$$

$$X \rightarrow aX / aXc / Y$$

$$Y \rightarrow aY / aYb / \Lambda$$

$$B \rightarrow Mc / b$$

$$M \rightarrow Mc / aMc / N$$

$$N \rightarrow Nb / aNb / \Lambda$$

4.34

$$S \rightarrow a / Sa / bSS / SSb / SbS$$

aabbbaaa

5-18 (b) $\{x \in \{a,b\}^* \mid n_a(x) \neq n_b(x)\}$
