

Thesis Statement

How young is too young for social media use?

Although it keeps them connected with friends, 13 years old is too young for social media use, since it reduces face-to-face interaction and exposes them to adult content.

Dieting makes people fat.

Even though it is stressful, Dieting does not make people fat, because it helps to reduce caloric intake and promote healthy diet.

College students should have complete freedom to choose their own courses.

Regardless of the fact that they should be exposed to other knowledge, College students should have complete freedom to choose their own courses, since they know what they are good at and they will study more comfortably.

Do you trust Facebook?

Even though they have up to date security, you should not trust Facebook, on the grounds that our personal information is not protected and they have complete control over our data.
